J. H. Pfeiffer Esq.

I submit the following statement which I had with Undertaker Walter R Dahl Sunday evening at his home in Company with his partner Mr Russell Fisher whom I knew personally, this makes the second time I have seen him: my first visit was regarding statement some persons said he had made regarding that Mrs Mills tongue was not cut out, this statement he denied which my report mailed stated.

Sunday evening he went over what he had done doing the work for Undertaker Samuel Sutphen.

He found the body of Mrs Mills and same was covered thick with Maggits, and as he said he never saw any body covered from head to foot like here: while cleaning the body for Dr Long he said he thought he noticed cuts around the throat and caused Dr Longs attention to it. Dr. Long said it was caused by scarf around the neck so tight, he said he never saw another human body only bullet hole in head, he had to spray the body all over to kill the maggits, and then scrape them off. Undertaker Sutphen did not touch body only as he handed out the maggits to him in paper he burnt them up in the yard; and he further said of her throat was cut why did not Undertaker Hubbard sew the wounds as that is always what he or any other Undertaker would do sew up any and all wounds on bodies; he further said he washed the body off clean to enable Dr. Long in his work. Now I did not think this to be

much use, but if you should like to have a talk with him, he stated to me he would be willing to go where you would appoint and talk over or answer any question you would ask him.

In case you think it important enough I would suggest to have him meet in New York office as he is well known about here.

He was at the 1st Grand Jury investigation in 1922.

And since 1923 he has been in Company with Mr Russell Fisher of Pearl River and Spring Valley Undertaking business from's name Fisher & Dahl Spring Valley Ny Phone SV 74

Pearl River Phone 707 P.R.

105. 2307 p2

Would have written report last night but it was late and I got up at 4 this AM so I could be at your office by 8.30 AM I waited at office until 9 and as I could not get in touch with Mr Palger, concluded to write report out, and leave it at office Tuesday A.M.

You may get further facts out of Dahl as he heard my remarks towards Senator Olss.

I gave Joseph Dr Manda address aka data on him & "Gregory". as he is the man who put bodies in casket and brought them to the Morgue. Now if you would need

any further information regarding Statiaid with regard Mr. Koch will supply same, as he was a Policeman in Jersey City and knows this Statiain personally, told me he could get record further if you so desired also would testify as to his character during time on force.

Mr. Koch is well thought of and a mason, and the friend who got information from him is also a Mason, and as he stated he would go the limit on this bird as he said he is no good.

Talking Odds our side are still 5 to 1 that Pay roller will never take stand.

Respectfully Submitted
